A comprehensive summary of background statistics is vitally important in the operation of current, as well as the planning for future agricultural programs. Factual knowledge of "Where We Have Been" is a necessity in the proper planning for "Where We Are Going."

To provide this information in handy reference form, this report is compiled giving current, overall land use information and also program information for the latest five-year period for comparison purposes. The programs recorded herein are those programs of the Department of Agriculture which are administered in the State of Washington by the A. S. C. State Committee. However, the important conservation and economic accomplishments outlined in this report could not have been realized without the unlimited cooperation and assistance given us by the 39 county ASC committees and the 309 community committees in the State of Washington. Their assistance is gratefully acknowledged.

F. Leonard Gaffney, Chairman, ASC State Committee

Walter A. LePage, Member, ASC State Committee

W. James Wylie, Member, ASC State Committee

Cal A. Svinth, Member, ASC State Committee
